Driver Safety

Winter Driving: Guiding a vehicle from one place to the next is a particularly challenging task in winter weather. Ice, snow and even water on road surfaces reduce traction, increasing stopping distance and possibly resulting in a skid. It takes more distance to stop on an icy road than it does on a dry road.

Position Statement

Our "[Multitasking Statement](#)" is the NSC position statement on electronic devices, such as cell phones, and driver responsibility.

Safety Awareness

The NSC [Air Bag and Seat Belt Safety Campaign](#) aims to protect kids from their greatest risk: being killed or injured in a car.

The NSC's [National Safety Belt Coalition](#) promotes the lifesaving benefits of correctly used safety belts and child safety seats.
